

Studying Skillful Teaching

Analyzing Teaching for Student Results (ATSR)

Who?

This course is applicable for K-12 administrators.

When? Where?

For the current schedule and registration, see Lane ESD Studying Skillful Teaching web page:

<http://www.lesd.k12.or.us/sst/index.html>

If you would like to bring Studying Skillful Teaching to your district, contact Marianne Oakes at moakes@lesd.k12.or.us

Fee?

Analyzing Teaching for Student Results cost per participate is \$1,065.

Credit?

3 UO Graduate Credit Hours - \$150 per credit hour

The purpose of this course is for leaders to learn how to zero in on high-leverage teaching strategies that make a difference in student learning. This course includes examination and use of a common language and concept system, the development of skills for classroom observation, and the capacity to identify and provide results-oriented reports and feedback that are credible and convincing.

ATSR Admin Course – Analyzing Teaching for Student Results (42 hours – presented in 2 full days and 5 half days)

• Outcomes

- See more of what is critical to student learning
- Analyze with insight
- Communicate better about teaching
- Invest leadership effort strategically

Four major strands are woven together throughout each session and in the field-work experience:

- Studying high-leverage areas of the knowledge base on teaching and applying it to your own work
- Developing communication skills
- Examining and experimenting with multiple data sources
- Defining high standards and expectations for teaching and learning
