

# OEA CHOICE TRUST

Inspiring schools to create healthy workplaces for staff.

## Who We Are

OEA Choice Trust is the only organization solely dedicated to the total health and well-being of Oregon public education employees.

We believe that ALL education employees are critical members of our community and should have the support they need to be well – physically, emotionally, and socially.

# Our Vision

All Oregon public school employees are healthy, resilient and engaged as champions for healthy school environments and vital communities. As a result, they are fulfilled in their work, model well-being for students and are better equipped to foster student success.

## What We Do

We invest in the well-being of education employees through:

- District-level Well-Being Grants, sponsorships, and professional development
- Technical assistance, trainings and resources
- Convenings that draw educators from across the state for professional development, rejuvenation, and comradery

**“ This is a critical time to strengthen and build on the remarkable resilience that already exists individually, and collectively, in education. ”**

- Debbie Brudevold, OEA Choice Trust Board Chair

*We have been blessed to have OEA Choice Trust as partners in improving the health and wellness of our employees. As you know, the critical work of educating our children and students has never been more challenging and stressful (at least in my professional career) and it is so incredibly helpful to have the support of the OEA Choice Trust to help care for our employees.*
