Recruitment: Contrasting Groups Study

- ❖ Recruitment window has been extended to March 25th
- ❖ Oregon has spots to fill in each grade band
- ❖ High School participants are a priority
- ❖ Please let Michelle know if you have questions!

ELPA21 Screener Development

- ❧ Screener design and development continues with our partners at UCLA CRESST
- ❧ Still a 3-stage model, including a short “get to know you” phase that includes practice and orientation to the task.
- ❧ A pilot test for the screener is expected in May 2016, watch for communications about participation
- ❧ Screener scheduled to debut in August, 2016 on an outside platform (not Oregon’s current vendor)

ELPA21 Screener Implementation

- ❧ Oregon will not require the ELPA21 screener until mid-school year during 2016-17
 - ❖ Exact dates to be determined
- ❧ Oregon school districts should plan for usual screener usage of the commercial screeners (IPT, WMLS, etc.)
- ❧ ODE plans an ELPA21 screener roll-out with a concurrent data study
 - ❖ Information to follow for participation

ELPA21 PD Modules

- ❧ First 3 modules were delivered late fall 2015
 - ❧ Introduction
 - ❧ Task Analysis
 - ❧ ELP Standards
- ❧ Final 3 modules will be delivered in fall 2016
 - ❧ PLDs (October)
 - ❧ Formative Assessment (November)
 - ❧ Reflection (December)

ELPA21 at UCLA/CRESST

- ❧ Grant period ends September 2016
- ❧ Negotiations are underway to create a permanent home at UCLA/CRESST
- ❧ Similar to Smarter Balanced, Oregon would sign a Memo of Understanding to join ELPA21 at UCLA/CRESST
 - ❧ Receive access to item bank and calibrations
 - ❧ Participate in future field testing
 - ❧ Research opportunities for future improvements / benefits for ELs
